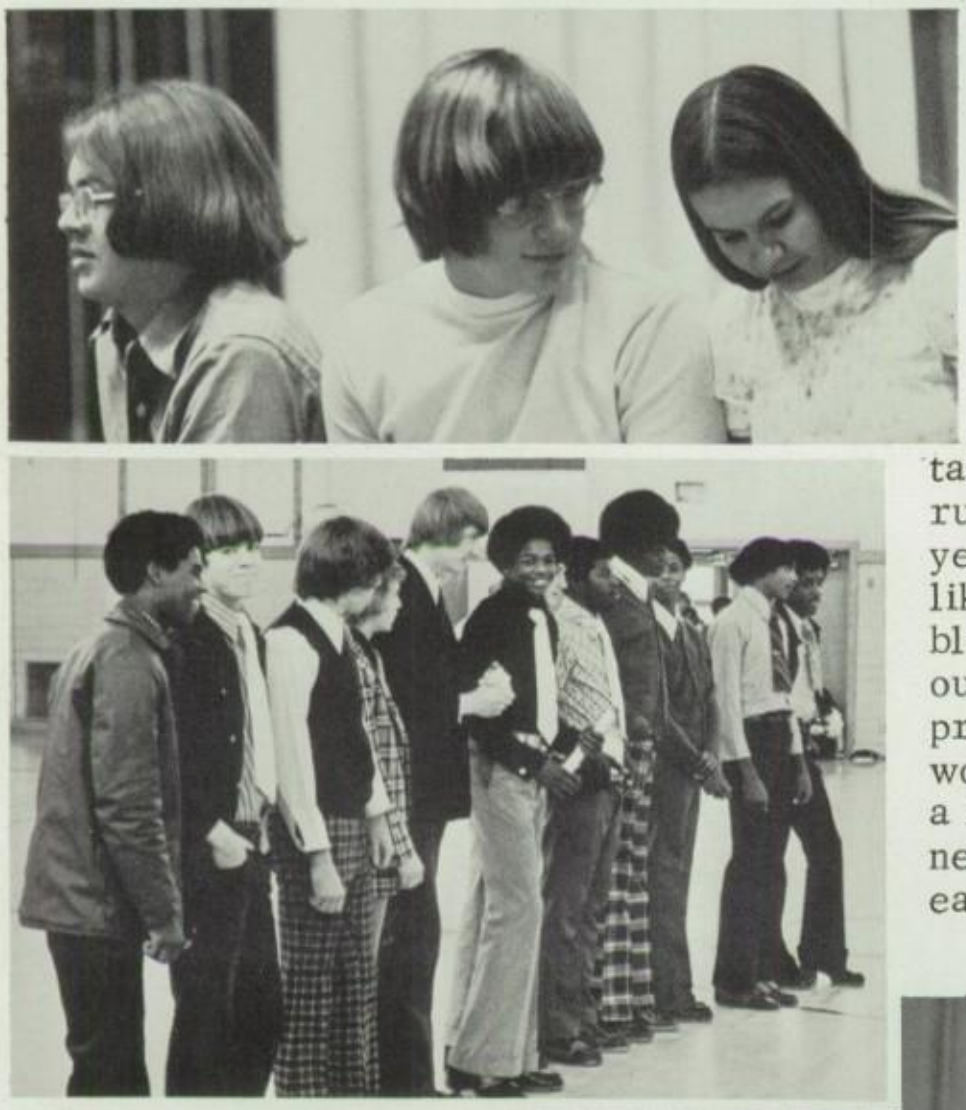
A Look Through Pictures — 1973-1974 School-Year

Poem written by
Card Delaney
Dayton, Oh.



I caught a strange disease today called happiness. Mirrors smiled at me; I smiled back. A crooked, embarassed smile, as if someone had discovered me talking to myself. I wanted to run up to you, and you, and yes even you. Roll in the grass like puppies, Taste the wind and let it scramble our hair. Clasp toes together and run on our hands. But then I started thinking . . . You probably would think me strange, or even worse silly . . . There are so many cures for a happiness disease.

I met you on a long dark road that
day, each going our separate way.

The hills seemed to get hard to climb,
we're running out of time.

You shared your pop with me and I
with you. And together we learned
something new.

And since we're going our separate
ways, friends we'll be for the rest
of our days.

Helen Kelly

Three pictures to the right: The English students returned to Buchanan for a three week stay. They are pictured at Notre Dame, where the tour of the campus was given. Clark Equipment sponsored various trips such as Niagra Falls, Ford Motor Company, The Cook Nuclear Center and Canada.

This year we had two very lovely people spending their senior year with us at Buchanan High. (Lower lft. corner) Maggie Svenson and Agnes Galas.

Agnes, Maggie, and the English students will remain in our minds and hearts for some time.

Hats off

Congratulations! Now what. . . travel, work, service, college or technical school? Regardless of your choice, how far you go in this space age depends partly on your imagination but primarily on your education and training. There's room for everyone in this free enterprise system and whether or not you conquer new horizons depends on how you apply your specialized knowledge, skills, and training. Good luck!
